DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Group VI, with chicken litter species of Group III

in the reply filed on 10/23/06 is acknowledged. The traversal is on the ground(s) that No reasons were presented to support restriction between III and VI. Group III is independent and distinct from VI, as VI articles can be used with other methods; attracting flies, birds, and other desired pests or target species.

. This is not found persuasive because, As to the lack of burden to search any fertilizer; commercials can include urea, or N sources, solid or liquid, macro and micro-nutrients in a multitude of forms and nutrients, as opposed to multiple manure forms, also perhaps, commercials-Melorganite. The searches would be burdensome.

.The requirement is still deemed proper and is therefore made FINAL.

1. Claims 1-24 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention

, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 10/23/06.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 25-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear what is intended by "primarily ground up..." is cellulose the primary core material, what else is present? Or is the cellulose ground up, but then secondarily treated; or is some, but not all cellulose ground up?

Claim Rejections - 35 USC § 102

Art Unit: 1615

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 25-29 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over anticipated KAZENZADEH 6009663.

An article of a matrix, the instant core, and an adhesive coating carrying desired (column 5, line 36) grass seeds is applied to the core of ground up cellulose-garden cuttings (column 2, lines 25-45) is shown as a pellet, of volume is large enough to accommodate 2 mm+ grass seeds, thus obviously in the 0.5-150 cc range of claim 29. Starches are the adhesives (column 6, lines 33-34).
